

IARC MISSION 6: “Covert Operation”

Notional Mission

Credible and actionable human intelligence (HUMINT) reports have been received from a mole within the Hesamic Republic of Nari’s Intelligence Organization. These reports indicate that highly sensitive information detailing plans to sabotage banking interests of a global organization may be stored in a security office located in the remote town of Rafq. A breach in security has been identified which may allow a small autonomous air vehicle to penetrate perimeter defences so that the sensitive information can be stolen by the global organization in order to preempt any actions by the Nari government which would be deemed damaging to these unnamed global interests.

Before his untimely death, the mole was able to describe a number of features within the Nari Intelligence Organization’s security compound and the desired target. The following electronic communiqué is believed to contain reliable intelligence (NEC Pivot machine translation):

1. THE NARI SECURITY COMPOUND IS SURROUNDED BY RAISED TENSION [analyst: a high voltage] ELECTRIC FENCE WITH AN INNER RAZOR TELEGRAPH EXTENT [analyst: razor wire boundary or perimeter].
2. THE BUILDING IS CONSIDERED SECURE, BUT HAS VIDEO [unreadable] AT VARIOUS POINTS. VIDEO IS MONITORED BY GUARDS IN AN ADJACENT COMPOUND 300 METERS TO THE SOUTH.
3. CERTAIN HALLWAYS INTERNAL THE SECURITY COMPOUND GET LASER "TRIP-WIRES" WHICH ARE ABLE TO BE DEACTIVATED MANUALLY. THE LASER BEAMS, IN CASE BROKEN IN TWO, INITIATE AN LOUD HEARING [analyst: audible] ALARM.
4. EVERYONE'S FLOORS HOLD PRESSURE-SENSITIVE [unreadable; perhaps "switches"] THAT ARE MADE TO TRIP [analyst: armed or switched on] AT THE ENDING OF EACH WORK DAY.
5. A UNMARRIED GUARD [analyst: sole or single guard] PATROLS THE SECURITY COMPOUND ON A 10-MINUTE ROTATION. HE CAN BE SEEN WALKING [unreadable] THE COMPOUND AND THEN ONCE EVERY 10 MINUTES, ENTERING THE COMPOUND FOR A SECURITY INSPECTION LASTING ABOUT 15 MINUTES. HE THEN EXITS THROUGH THE ENCLOSURE TO [unreadable] BEING EXTENT. BEGINNING THE ENCLOSURE [unreadable] ONLY BEING ACHIEVED WHEN THE GUARD GOES OUT. ENTRANCE WAY OUT. [analyst: entering the compound can only be achieved when the guard is outside] INGRESS/EGRESS MUST OCCUR IN BELOW 10 MINUTES TO AVOID DETECTION.
6. THERE ARE SEVERAL OFFICES WITHIN THE COMPOUND. THE SECURITY OFFICE CAN BE FOUND BY OBSERVING DIRECTIONAL SIGNS AND IS UNIQUELY IDENTIFIED BY A SIGN OVER THE DOOR.
7. ONE TWINKLE DRIVE CONTAINS HURTFUL INFORMATION [analyst: a flash drive containing sensitive or damaging information] OF INTEREST TO OUR GLOBAL MASTERS AND OTHERWISE KEPT ON THE TOP THE LAYERS OF PAPERS IN THE CHIEF OF SECURITY'S IN-BOX EXISTING ON HIS DESK.
8. A SINGLE UPPER STORY WINDOW IS BROKEN AND REMAINS OPEN ON THE STAGE [analyst: level or floor] BELONGING TO THE CHIEF OF SECURITY OFFICE.

END OF TRANSCRIPT (RECEIVED 31 JULY 2009; NOK KUNDI SATNODE)

TASK: Penetrate the Nari Intelligence Organization's security office and remove the flash drive without detection. An identical flash drive must replace the original drive to delay detection of the missing data (see your MISSION 6 tasking orders at: http://iarc.angel-strike.com/task_orders.pdf).

The covert mission must be conducted without compromise of the organizations funding the mission, therefore no identifying markings or information that can be traced back to the organizations shall be incorporated onto or into systems which may be compromised or captured should the mission fail.
